Teacher guide and evidence

Use evidence, flexible roles, and adult safeguards.

HEN HOUSING

Treat this as a Grades 6-9 learning extension unless a current BC SPCA action request is confirmed. Students may record NOT STATED.

BIRD WINDOWS

Students explain why collisions happen and record the source's recommended changes before proposing anything for school windows.

HOT-CAR SAFETY

Students record the risk, the adult reporting route, and what they must never do. Adults handle every real concern.

COLLECT / NOTICE

Collect the dated source note, three completed action tests, one approved proposal, and a dated follow-up.

DEBRIEF

Which action is requested now? Which appealing action is not ready? What evidence or approval would change the answer?

CARE AND ACCESS

Avoid graphic images. Students do not handle wildlife, confront owners, investigate cruelty, or alter habitat. Adults manage outside contact, money, collections, and school changes. Offer roles beyond public speaking.
