

Truth, Place & Responsibility

Credit an Indigenous-created source and notice living strength.

THE MAPS ARE NOT IN THIS PACK

Your teacher projects both maps from the Hub first. Compare them together. Then open one Nation-created source, look or listen twice, and record only what the source supports.

1. WHO CREATED THIS SOURCE?

Write the creator or group, title, and the Nation or community named.

2. WHAT DID THEY TEACH OR SHOW?

Write or sketch one accurate learning from the source.

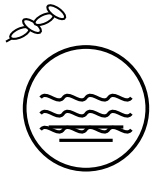

3. WHAT IS STRONG AND LIVING TODAY?

Notice present-day language, family, land, culture, community, or joy.

4. WHAT DETAIL SUPPORTS YOUR IDEA?

Record exact words, an image detail, or a moment from the source.

Create a Credited Visual Response

Show one learning, one living strength, one next action, and a source credit.

WHAT WE LEARNED

One source-supported idea:

WHAT CONTINUES TODAY

One living strength:

SHOW THE IDEA YOUR WAY

CHOOSE ONE LAYOUT:

☐ THEN / NOW / NEXT ☐ ONE IMAGE + ONE SENTENCE ☐ LISTEN / CONNECT / ACT

Use ordinary scenes, place details, lettering, a timeline, or collage. Do not copy sacred or Nation-specific designs.

ONE NEXT LEARNING ACTION

One respectful thing our class can complete:

CHECK-BACK DATE: _____

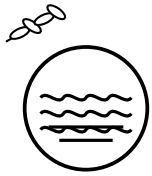

WE LEARNED FROM

Creator or group:

Nation or community:

Title / source:

Teach It From the Hub

Exact Hub screen map, timing, and copy counts for the core pathway.

COPY BEFORE CLASS

Pages 1-2: 1 set per student or pair. Pages 3-4: keep 1 teacher copy. The two maps are projected from the Hub and are not printed in this pack. Optional extensions are screen-only.

1 OPEN: Truth, place & responsibility -> Core learning pathway

HUB SCREEN	TIME	TEACHER MOVE	STUDENT PAPER
MAP	8 min	Project both linked maps. Locate Surrey and compare what each was made to show.	None. Maps are not in the pack.
OPEN	15-25	Open one local Nation-created source. Identify who created it.	Page 1, boxes 1-2.
CONNECT	15 min	Look or listen again. Notice one living strength and one exact detail.	Page 1, boxes 3-4.
CREATE	30-45	Model a source-supported visual and a complete credit.	Page 2, planning + visual area.
COMMIT	5 min	Choose one realistic next action and a check-back date.	Page 2, bottom-left box.

OPTIONAL HUB SCREENS

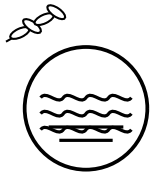

GOVERNANCE (10-20 min): screen-only. KNOWLEDGE + CONSENT (10-20 min): screen-only. Use the OCAP plain-language notes on Page 4; do not ask AI to imitate an Indigenous voice.

60-SECOND MODEL

Name the creator first. Then record one exact source detail and one present-day strength. Say: 'We are learning from this creator and community; we are not inventing or borrowing designs.'

COLLECT

A credited visual response plus one realistic next action and check-back date.

Care, Consent + Ready Sources

Use living language. Being online does not automatically permit reuse.

TEACHING MOVES

Use present tense for living Nations.
Credit the specific creator, Nation, or community.
Pair difficult truth with strength, resistance, language, family, land, culture, and continuity.
Name First Nations as governments with inherent rights - not a level below the city.

CARE

Never simulate residential schools or ask students to role-play trauma.
Do not ask Indigenous students to represent or explain a community.
Preview the chosen Nation-created source for grade fit. Avoid copying sacred or Nation-specific art and symbols.

OCAP - PLAIN LANGUAGE

OCAP applies specifically to First Nations information and data. It is not a blanket label for all Indigenous Peoples.

OWNERSHIP

A First Nation collectively owns its information.

CONTROL

A First Nation has a say in how its information is collected, used, and managed.

ACCESS

A First Nation can see its own information and decide who else may use it.

POSSESSION

Keeping the information helps a First Nation protect it and control its use.
