

When Barriers Stack

This Community Night is fictional and still being planned. Notice how event choices can combine to create a new participation problem.

PROJECT: STACK + CHAIN

DO THIS FIRST

1. Read every event fact. 2. Circle two choices. 3. Ask what happens when both are true.

ONE TIME ONLY

Only one time is offered.

ADVANCE SIGN-UP

People must sign up early.

LONG WRITTEN INVITATION

The invitation is hard to scan.

ONE LANGUAGE

No approved translation is offered.

NO FOOD INFORMATION

Ingredients are unknown.

LOUD OR CROWDED ROOM

There is no quiet zone.

ONE FORMAT

Everyone must join in the same way.

★ Look twice

Each fact can create a barrier on its own. Two facts together may create a different or larger barrier. Describe the event conditions - do not invent someone's identity.

Build a Barrier Chain

Copy two facts from the fictional event. Then explain the new participation problem they create together.

USE WITH: CHAIN

1 BARRIER 1

Copy one event fact. Why could it limit participation?

.....

.....

.....

+

2 BARRIER 2

Copy one event fact. Why could it limit participation?

.....

.....

.....

3 WHAT HAPPENS TOGETHER?

What new participation problem appears when both event facts are true?

.....

.....

.....

Consult before deciding

Name a role or group with relevant experience. Then write one respectful question organizers should ask. No classmate represents anyone.

ROLE OR GROUP

.....

.....

.....

Access Plan Challenge

Required access is not optional. Check the basics first, then spend up to six planning points on enhancements.

USE WITH: BUILD

REQUIRED BASICS - CHECK ALL FOUR

- ☐ Accessible route
 ☐ Join without paying
 ☐ Food / allergen info
 ☐ Safe exit route

☐ TWO TIME CHOICES

Offer two different event times.

2 POINTS

☐ PICTURE SIGNS

Add simple picture directions.

1 POINT

☐ APPROVED TRANSLATION

Use a checked translation.

2 POINTS

☐ QUIET ZONE

Provide a quiet nearby space.

2 POINTS

☐ SEATED / STANDING

Offer seating and standing.

1 POINT

☐ TAKE-HOME SUMMARY

Share key information later.

2 POINTS

OUR ACCESS PLAN

Chosen enhancements:

Points used: ____ + ____ + ____ + ____ = ____ / 6

CROSS OFF EACH POINT YOU USE

1

2

3

4

5

6

Check the Plan

A strong access plan includes required basics, chosen enhancements, consultation, and an honest unanswered question.

USE WITH: CHECK + FINAL

1 WHAT IS ALREADY IN THE PLAN?

List the required basics and the enhancements your group selected.

.....

.....

.....

2 WHICH BARRIER REMAINS?

Name the participation barrier, not an identity.

.....

.....

3 WHO SHOULD CHECK THE PLAN?

Name a role or group organizers should consult. Write one question to ask.

.....

.....

.....

4 WHAT WILL STAY UNANSWERED FOR NOW?

Keep one unanswered question visible instead of claiming the plan is perfect.

.....

.....

Teacher Quick Start: When Barriers Stack

Use one projected Hub screen at a time. The mapping below shows exactly which page students need.

Hub screen to printable map

STACK + CHAIN

Page 1

Project the event facts. Students circle two choices.

CHAIN

Page 2

One copy per group for the barrier chain and consultation question.

BUILD

Page 3

One copy per group for required basics and the six-point budget.

CHECK + FINAL

Page 4

One copy per group for the final plan and unanswered question.

AI + ENVIRONMENT

AI Card 4

Optional extension. No extra page is included in this pack.

READY

Print pages 1-4 once per group and provide pencils. No cutting or loose counters are needed. Open both B.C. Human Rights sources before class.

MODEL - ABOUT 60 SECONDS

Connect ONE LANGUAGE and LONG WRITTEN INVITATION: 'Together, the invitation may be hard to understand. I should ask which formats and approved translations are needed.'

RUN IT

1

Choose two fictional event barriers.

2

Build one barrier chain.

3

Check every required basic, then spend up to six points.

4

Name what remains unanswered and who should check.

Teacher Notes: Evidence, Care, and Debrief

Keep the scenario fictional, centre participation barriers, and model consultation as part of good design.

Open these before class

COLLECT / NOTICE

Collect one plan with all required basics checked, a correct six-point total, one unanswered question, and a consultation step.

DEBRIEF

Which basics are non-negotiable? Which enhancement helps across barriers? What still needs consultation?

TEACHER MOVES

Keep the focus on interacting conditions and systems. Do not turn identities into a checklist. Ask who should shape the redesign.

CARE

Students analyze a fictional event. Do not ask them to disclose family income, disability, religion, migration, or language experiences.

CURRICULUM CONNECTIONS

Social Studies: systems and equity | ADST: design for diverse users | Language Arts: connecting and explaining ideas
