

Access Makeover Lab

Test the directions for 30 seconds. Find barriers, not faults.

THE 30-SECOND MINI-TASK - READ EVERY DIRECTION FIRST

1. Write one full paragraph naming four ways a classroom can be fair.
2. Work alone.
3. Use pencil only. No examples.
4. Finish in 30 seconds.

CIRCLE the exact words that create barriers.

2 CHOOSE TWO TOOLS THAT COULD REMOVE AN EXACT BARRIER

LISTEN

Audio or
read-aloud

PAIR

Think with a
partner

QUIET SPACE

Low-distraction
option

CHECKLIST

One step at a
time

CHOOSE A RESPONSE

More than one
way to respond

3 EXPLAIN THE MATCH - name the tool and the barrier it removes

TOOL 1: _____

The exact barrier it removes is...

TOOL 2: _____

The exact barrier it removes is...

Build a Ways-to-Join Menu

Keep the learning goal; change how students join and respond.

FIRST, YOUR TEACHER SUPPLIES THE REAL TASK

Your teacher writes the REAL TASK + LEARNING GOAL and checks at least two choices in every row that are truly available.

REAL CLASS TASK: _____

LEARNING GOAL: _____

Teacher: ☐ check available choices Students: circle at least TWO checked choices in every row.

BUILD

ACCESS CHECK

☐ At least two real choices in every row ☐ More people can join ☐ The learning goal stayed the same

Test, Revise, Use

A partner tests the menu. Revise one part before the real task.

1 PARTNER ACCESS TEST

-
- ☐ The real task and learning goal are clear. ☐ Every row has at least two available choices.
- ☐ The choices are realistic for this class today. ☐ The learning goal stays the same for everyone.
- ☐ No one must disclose a diagnosis or support plan.

Partner name or initials: _____

2 SHOW HOW TWO CHOICES REMOVE BARRIERS

CHOICE	EXACT BARRIER REMOVED	WHY THE GOAL STAYS THE SAME
Choice 1		
Choice 2		

3 MAKE ONE VISIBLE REVISION

OUR REVISION

We changed _____ because _____

4 AFTER THE CLASS USES THE MENU

What helped more people join?

What still needs changing?

Teacher Guide: Print + Project Map

Teacher supplies the real task, goal, and available choices.

COPY PLAN

PAGE	COPIES	PURPOSE
1	1 per group	Mini-task + tool match. Use at TRY and MATCH.
2	1 per group	Real Ways-to-Join menu. Use at BUILD.
3	1 per group	Peer test, revision, and after-use reflection. Use at TEST and USE.
4-5	1 teacher copy	Launch map, model, care notes, evidence, and sources.

EXACT HUB SCREEN MAP

HUB LABEL	SCREEN TITLE	USE
TRY	Try the mini-task for 30 seconds	Page 1 - first box.
MATCH	Match tools to exact barriers	Page 1 - tool cards + response boxes.
BUILD	Build a Ways-to-Join menu	Page 2; teacher supplies task + goal first.
TEST	Can a partner understand the menu?	Page 3 - partner access test + revision.
USE	Build the class version	Page 3 - after-use reflection.
AI ACCESS CHECK	A tool can remove one barrier and create another	Optional Hub screen only. No PDF page.

BEFORE STUDENTS ARRIVE

Bring one real upcoming task. Write its student-friendly learning goal. Mark at least two genuinely available choices in each menu row. If a row has fewer than two, add a realistic route or choose another task.

Teacher Guide: Model Access, Not Disability

Focus on barriers in the task or place - not in the learner.

MODEL ONE MOVE - ABOUT 60 SECONDS

Circle 'work alone.' Think aloud: 'Pairing can remove this barrier while the learning goal stays the same.' Name the exact barrier instead of judging the learner.

TEACHER MOVES

Use 'barrier' and 'access' more than 'special need.' Value expertise from lived experience without requiring disclosure. Test only choices that exist today.

DEBRIEF

Which exact barrier did each choice remove? What learning goal stayed the same? Who can participate now?

COLLECT / NOTICE

A peer-tested menu attached to one real task, plus a visible revision and after-use check. Optional: a learner-chosen paper, photo, or audio reflection.

CARE

Do not use disability simulations. Students may contribute without identifying their own disability, diagnosis, or support plan.
