# Teacher Quick Start: Animal Care Evidence Lab

Do not copy this page. Open the source, model one move, then hand out only the student pages needed (1-2).

## READY

One pack per team. Assign one of the three cases and open its exact BC SPCA source using the matching QR code below.

## MODEL ONE MOVE - ABOUT 60 SECONDS

For bird windows: 'I will record the BC SPCA recommendation in my own words and keep the exact source title before suggesting a school change.'

## 1 RUN IT

1

Assign one case or learning extension.

2

Record a need, fact, and recommendation or 'not stated.'

3

Test three actions only when evidence supports action.

4

Approve one proposal; track output, response, and change.

## DEBRIEF

Which action is requested now? Which appealing action is NOT YET ready? What evidence or approval would change that answer?

## COLLECT / NOTICE

Collect the dated source note, three completed action tests, an approved proposal, and a dated follow-up.

## CARE

Avoid graphic images. Students do not handle wildlife, confront owners, investigate cruelty, or alter habitat. Adults manage contact, money, and collections.
